

People Talk About LINWOOD PLACE WHY?

BECAUSE

They find there big generous lots, 160 feet deep, 5-foot cement sidewalks, curbs, gutters, ornamental pillars, lighted streets, a beautiful 10-foot park-way planted to date palms and Italian cypress trees, in fact absolutely the finest improvements ever attempted in Riverside, and lots are only \$600 and \$700. Go look at it and then see us about the cash discounts and liberal terms.

These improvements are all completed and paid for. We won't tell you "What we are going to have."

MORE THAN EVER

Increased Capacity for Mental Labor Since Leaving Off Coffee.

Many former coffee drinkers who have mental work to perform, day after day, have found a better capacity and greater endurance by using Postum instead of ordinary coffee. An Illinois woman writes:

"I had drunk coffee for about twenty years, and finally had what the doctor called 'coffee heart.' I was nervous and extremely despondent; had little mental or physical strength left, had kidney trouble and constipation."

"The first noticeable benefit derived from the change from coffee to Postum was the natural action of the kidneys and bowels. In two weeks my heart action was greatly improved and my nerves steady."

"Then I became less despondent, and the desire to be active again, showed proof of renewed physical and mental strength."

"I am steadily gaining in physical strength and brain power. I formerly did mental work and had to give it up on account of coffee, but since using Postum I am doing hard mental labor with less fatigue than ever before."

How many of them can you name offhand? Of how many can you say: "They keep so and so goods, and charge such and such prices?"

Mr. Businessman, there are 15,000 people in Riverside. How many of them are your customers?

How many of them know anything about your goods, your place of business, what goods you handle, the service you offer, the prices you charge?

There is just one way of getting in touch with all the people in this city and that is by advertising in the newspapers.
