DAILY GREETING

Such a glad little song
In my heart all the day
Has kept rippling along
In the happiest way.

It's a song I would share
With a good friend and true
So I ask—you would you care
If I send it to you?
—J. W. Foley.

ON TRADING AT HOME

The Press is going to venture a few words on a very hackneyed subject, but some recent developments make the observations timely.

It would be no difficult matter to make up a list of Riversiders of more or less prominence who have only one rule regarding what they buy—trade with the man who makes you the lowest price. If he lives in Los Angeles instead of Riverside, that makes no difference. Those men naturally will advise a public official or anybody else to pursue the same policy.

Let us look at the facts a little, however, and see where that sort of a policy would land us, if most everybody in Riverside adopted it. They could find excuses, sometimes plausible and sometimes flimsy ones, for buying most everything in Los Angeles. The result would be that many of our stores would close and industries maintained here would be discontinued. Men and women who are now employed in Riverside at good wages would have to hunt jobs somewhere else. Now they own homes here, pay taxes, and send their children to our schools. They would be forced to move away to some larger center of population and Riverside would be shrinking instead of expanding.

There is one sure way to cripple the growth of a town, the prescription never fails—buy from home every chance you get. Patronize the Larkin Club, send your orders to Montgomery Ward, rush off to Los Angeles every time you want to buy a suit of clothes, a new rug, a week's supply of groceries or have your automobile painted. Send your printing to some cut-rate "scab" shop in Los Angeles; and let the local printers close up and move their outfits somewhere else.

A fine, prosperous community we would have in a few years if we followed that rule. We should not need any chamber of commerce, for there wouldn't be any big things to boost for. The town would get the dry rot and enterprising people from the east would pass it by.

The way to build up a town is to be loyal to it; buy everything you need of the home merchants, even if you do pay a trifle more sometimes, or occasionally miss the variety of metropolitan stocks. Have your work done by local mechanics and be willing to pay them a fair living wage.

Riverside has been passing through some rather trying days and the people who advocate trading in Los Angeles on the cold-blooded principle of saving 50 cents every chance they can are doing their best to bring worse days upon us. They are against the highest interests of the community; and in the long run they will suffer with others because of their narrow and unpatriotic views.

Pigeon Holes for People

You simply can't pigeon hole people. There is a time in our early youth when we think of people only as individuals, and don't try to class them as types. A little later comes a time when we begin to classify and generalize. And then it is that we try to put all the people we know in pigeon holes, according to types, and keep them there.

Then we grow still a little older, and we discover that people are individual as well as types and that you simply can't keep them in pigeon holes for any length of time without having them pop out at you.

She Says that Open Fireplaces Are Too Dirty

For instance, a friend of mine, who is fond of reading aloud in the evening and seems to me just the person who would adore open fireplaces, started me the other day by saying that she wouldn't have one in the house—they were too dirty.

Whereas the woman who is so punctiliously neat that all her friends clean their houses when she comes to see them, gave me an equal surprise by saying that it was one of her greatest ambitions to have an apartment with a fireplace.

Again, there is the man who does

not like dogs. He is a big, typically out-of-doors man, open-hearted and open-handed, indifferent to clothes and appearances. It seems as if he must love dogs. And he has no use for them—says they are dirty and stupid—turns from them with an aversion that one might expect from a little, over-dressed fop.

The Case of the Three Brothers

And then there is the case of the three brothers. The oldest is another out-of-doors man, large voiced, large hearted, loves to swim and hunt and fish. The second is a very quiet, generally reticent person, likes outdoors but in a quiet way—a great worker and thinker. The third cares less for outdoors—goes in much for social gatherings, has quite a way with women. When the dancing craze came along, any one would have unhesitatingly picked him as the one who would care the most for dancing. He hates it. And both the other brothers have gone quite mad over it.

It is the same way when you try to pigeon hole any one, as all good or all bad. Just when I think I have a good hate on a person, he ups and does something so kind and generous that I can't hate him any longer. It's most discouraging, isn't it?

R. BROWNING

R. Browning wrote some poetry which won him lots of fame. He had a very facile pen. The whole world knew his name.

TODAY'S BEST STORY

"Your prima donna seems somewhat disturbed this evening," said a friend to the impresario as they watched the entr'acte curtain calls. "What's the trouble?"
"She only got nine bouquets to-night," was the answer.
"Gee whiz! Weren't nine about enough?"
"No. She paid for ten."

BEST KID STORY

"Tommy," said the Sunday school teacher, who had been giving a lesson on the baptismal covenant, "can you tell me the two things necessary to baptism?"
"Yes'm," said Tommy, "water and a baby."

A JUVENILE aspirant to pugilistic honors was taken from the ringside by his mother at Marysville, spunked and led home. The referee doubtless thought the boy was entitled to the decision, as the mother landed several warm ones below the belt.

A SANTA ANA couple that had been divorced and re-married four times, were reunited for the fifth time the other day. They ought to have experience enough by this time to "stay put."

BEAUMONT

(Daily Press Special News Service)
BEAUMONT, Jan. 26.—Mr. and Mrs. J. V. R. Priest celebrated the fifty-eighth anniversary of their marriage last Monday at their home in this city. They were married in Orange, Mich., on January 22, 1859. A remarkable feature of their long married life is the fact that during the many years there has not been a single death in their immediate family. One son, H. L. Priest, of Minneapolis, Minn., was here to share the celebration with them.

Arrested on Suspicion

A stranger who gave him the name as A. T. Jones came to Beaumont Tuesday on a motorcycle, which he offered for sale for \$50, about one-third of its actual value. The matter was brought to the attention of City Marshal Grant, who learned that a motorcycle bearing the same license number was recently stolen from W. S. Frisch of Brea, Los Angeles county. He placed Jones under arrest and later, on orders from the sheriff, took the prisoner and motorcycle to Los Angeles, where Jones will be arraigned for trial on a charge of larceny.

Former Residents Pass

Word was received here this week of the death of two former residents, each of whom was known to many Beaumont people. Miss Mary Carley, aged 27, who moved from this city to Yuma about six years ago, died suddenly in Los Angeles. She had been employed in the telephone exchange in Yuma.

Joseph McGuire, who conducted a fish market here two years ago, and has more recently been employed by the Southern Pacific at Snow Creek near Whitewater, was found dead in his house at that place. He had been a sufferer from tuberculosis.

CAPTIVE SOAP

This is supposed to be a free country. And yet look at our soap. Is it free? No!

But it used to be. Yes, soap used to be free. It lived in a dish and led a wild, glorious, independent life in hotels and sleeping cars. It was at liberty to come and go, (and frequently did, hotel men tell us), with any traveler it took a fancy to. Or it could stay home and float in the wash bowl.

Today, soap is a captive. It is looked up in dark, cavernous slot-machines, with a price on its head. Or else it's chained to a wall and left to swing sadly to and fro. Or it's reduced to a limp liquid and hung around in bottles, looking more like a cross between pea soup and salad dressing than its old familiar self. In any case it is bound about by a cordon of push buttons, knobs, cranks and levers which, in its crushed and bewildered condition it can never hope to break through.

Even in private life soap is no longer free. It used to be soap's delight to swim in the dishpan; but today it is driven into a little cage, shaken around in the water a while and put back on the shelf to mope.

THE dispatches announce that the Japanese diet has been dissolved. Well, we suppose that is another instance of having to live on soup for a time. Flickers is taking that sort of dissolved diet now and is sorry for the Japanese.

PERRIS

(Daily Press Special News Service)
PERRIS, Jan. 26.—The Tom Thumb Wedding, given Tuesday evening at the grammar school, was one of the most enjoyable events that has taken place here for some time. The auditorium was well filled with parents and friends of the children. The affair was an elaborate imitation of a fashionable wedding, the little tots all appearing in full dress costumes, and carried out their parts in a manner that would have done honor to much older performers. Much credit is due to the director and parents, as well as the children for the evening amusement.

With the return of pleasant weather everybody is planning to improve the appearance of their homes, pruning, making garden, planting trees and shrubbery seems to be the order of the day.
